

Stainless-Steel Shield Flexible Coupling

EF-FCP SERIES

Easyflex's Shielded Flexible Couplings are designed for quickly connecting cast iron and/or plastic underground sewage, drain, waste, and vent piping and providing a leak-proof seal. The gasket is made of elastomeric materials and the shield, compression bands, housing/clamp, and screw are all made of 300 series stainless-steel

FEATURES

- Soft Rubber Gasket Molds to Pipe Surfaces
- Watertight Seal Performance
- Low Expansion & Contraction
- Resistant to Vibration, Chemicals & Fungus
- Stainless Steel Clamp Assembly
- Underground DWV Applications

MATERIALS

Band & Housing	Stainless Steel 300 Series
Screw	5/16" Hex, Stainless Steel 305/304L
Gasket	Elastomeric PVC (ASTM D5926, C1173)

SPECIFICATIONS

Installation Torque	60 in-lbs
Pipe Compatibility	Cast Iron & Plastic
Application	Underground DWV
Coupling Types	Standard & Reducing

CERTIFICATIONS & APPROVALS

- UPC
- CSA B602
- ASTM C1173, D5926 & IAPMO 4933

PRODUCT LINEUP

PART #	DESCRIPTION	QTY/BOX
EF-FCP-112SS	1-1/2" Shielded Flexible Coupling, 3 Bands	50
EF-FCP-114SS	1-1/4" Shielded Flexible Coupling, 3 Bands	50
EF-FCP-200SS	2" Shielded Flexible Coupling, 4 Bands	50
EF-FCP-300SS	3" Shielded Flexible Coupling, 4 Bands	30
EF-FCP-400SS	4" Shielded Flexible Coupling, 4 Bands	30
EF-FCP-600SS	6" Shielded Flexible Coupling, 4 Bands	12
